Welcome to the May 2004 edition. I extend a special welcome any new subscribers to the Newsletter. As usual, your contributions, as well as your comments, are always appreciated.

Flowers are sprouting; trees are greening up and temperatures are in the double-digits here in the Montreal area. It's just great to be looking forward to another summer season here in town.

It has been great to have the opportunity to meet so many Newsletter subscribers at various hamfests over the past few months. If you're at an event where Radio HF is in attendance, please stop by and say hello. You'll find a calendar of events in the Newsletter.

****

SHAMELESS SOLICITATION, ONE LAST TIME! In just a few days I will be participating in this year's Baillie Birdathon, raising funds for Bird Studies Canada.

Last month, I solicited your support. Many of you have been receiving this free Newsletter for 6+ years. This is an easy way to show your support and appreciation for this monthly service.

Of the thousands of people who receive the Newsletter each month, I would personally and publicly like to thank the TWO subscribers who made contributions to support this important cause; Mr. Brian Jeffrey of Carp, Ontario and Mr. Dick Pearce of Brattleboro, Vermont. Your support is greatly appreciated.

It's still not too late to help the cause. Even the smallest pledge goes a long, long way in support of a cause that I believe so strongly in.

If you have any questions, and particularly if you would like to make a pledge (Visa/Mastercard/cheque), please feel free to contact me, either by e-mail, or by telephone at 450-671-3773. If you're in Canada, you can reach me, toll free, at 1-800-463-3773.

If you would like to learn more about Bird Studies Canada, the Baillie Birdathon, and how your pledge money is used, please take the time to visit the following web pages.

Thanks for allowing me to bend your ear on this special cause and interest of mine.

Our Monthly Special Zone for May features Mother's Day and U.S. Memorial Day. You'll find a list of other special events during the month of May listed in The May Zone.

Also note that the annual big event for amateur radio operators worldwide, Hamvention 2004 in Dayton, Ohio, will be taking place this coming weekend. Please see the official Hamvention web page link in The Radio Zone this month. If you're going to be there and are running into friends, be sure to tell them about the free Radio HF Internet Newsletter. I'd love to have them on-board.

THE MONTHLY SURVEY

Last month's survey question was "(Other than radio), what is your favourite hobby, leisure activity or pastime?"

We had 35 responses to the question. Here are the responses which garnered more than one vote each:

Photography -- 4 votes
Genealogy -- 3 votes
Astronomy -- 3 votes
Reading -- 3 votes
Hiking/Camping -- 3 votes
Birding -- 2 votes

A few other interesting ones: ballroom dancing, geocaching, Tai Chi, curling, chess

THIS MONTH'S SURVEY

A know that a lot of you are probably tired of politics, but the big U.S. presidential election is coming up in November. The question is a simple one:

Who will win the November 2004 U.S. Presidential election? George Bush, John Kerry, or someone else!

Please send your response, by e-mail, to
hfnewsletter@yahoo.com

NEW ICOM IC-703 and IC-703-PLUS (with 6 meters)

The new IC-703 is Icom's product for the QRP enthusiasts. Focusing on QRP performance rather than an all-in-one solution, the IC-703 covers the Amateur Bands 160m to 10m (Plus version includes 6 meters). Depending on the power supply the rig is capable of 5W @ 9.6VDC and 10W @ 13.8VDC, plus it has an internal antenna tuner. Icom engineers have addressed a lot of the concerns about current consumption and other comments gathered over the past two years regarding QRP performance. While it looks and feels like the IC-706MKIIG, this rig is a QRP version, not a replacement.

For more details on these radios, please visit:
http://www.icomamerica.com/amateur/hf/ic703main.asp

This radio and other fine Icom products are available from Radio HF. Please contact us for complete details on pricing and availability.

TEXPRO SNAP-ON CHOKES

Modern electronic equipment, both entertainment and industrial, are frequently plagued with radio frequency interference (RFI) from external sources. This interference can severely affect the performance of your equipment. Snap-On Chokes can help eliminate interference. Snap-on Chokes can be installed on cable up to 10mm in diameter without any access to the ends and without the risk of voiding any equipment warranty. For rigid cables several pairs of cores can be connected together and for flexible cables multiple turns may be fashioned to provide substantial impedance to interfering currents.

Snap-on chokes are available from Radio HF either in packages of 3, or as single units.

For more details on these chokes, please visit:
http://www.radioworld.ca/snapchok.php

Please contact Radio HF for pricing and shipping details.

THE GENERAL ZONE

CURRENT

http://www.current.org

VIA Richard Cuff, Allentown, Pennsylvania

For more than 20 years, Current has been the newspaper about public broadcasting in the United States. The paper comes out biweekly, usually every other Monday, 23 times a year. It's read by people involved in public TV and public radio Ñ station employees, independent producers, local volunteers and board members, viewers and listeners, state and national policymakers and others. The complete publication is not on this site.

NEW JOUR

http://gort.ucsd.edu/newjour/

VIA Sheldon Harvey, Greenfield Park, Quebec

This one will keep you occupied for some time! This is the archive list for new journals and newsletters available over the Internet. The complete archived alphabetical list includes over 14,000 entries.

SPACE WANDERER

http://www.spacewander.com/USA/english.html

SILVERSTREAM WEATHER

http://homepages.paradise.net.nz/lfduflou/Silverstreamweather.htm

VIA Daniel Lamoureux, Montreal, Quebec

I have come across a great weather site that I find amazing by its completeness. It is in New Zealand but it might give ideas to our weather people here. We never know.

DERELICT LONDON

http://www.derelictlondon.com

VIA Yahoo Weekly Picks

Derelict London is an unusual photographic portrait (of over 600 pictures of London, England. This is not a compilation of familiar tourist sights, but a depiction of an often un-picturesque view of everyday life in London. This site is obviously not taken to illustrate London at its most beautiful or most successful. The name derelict London is a memorable name for a website though not everything within this site is of derelict areas and everyone has their own definition of derelict.

EYEWITNESS TO HISTORY

http://eyewitnesstohistory.com/

VIA Dick Pearce, Brattleboro, Vermont

Your ringside seat to history - from the Ancient World to the present. History through the eyes of those who lived it, presented by Ibis Communications, Inc. a digital publisher of educational programming.

SPEECH ACCENT ARCHIVE

http://classweb.gmu.edu/accent/

VoIP: Internet Linking for Radio Amateurs
by Jonathan Taylor, K1RFD

Growing numbers of hams are using VoIP, or Voice Over Internet Protocol, in combination with their radios for long-distance communication spanning hundreds or thousands of miles. They're using the Internet as the relay between their base stations, handhelds and mobile transceivers.

This is a guide to the four primary VoIP systems used by hams: EchoLink, IRLP, eQSO and WIRES-II. The book is designed for beginners who need information on how to set up and use these systems, but it also provides plenty of technical "meat" for those who want to dig deeper and explore how the systems actually work.

Contents:
Connecting the World
Using A VoIP Link
Conference Servers, Reflectors and Nets
Other Linking Systems
Setting Up Your Own Node
Digital Audio and the Internet
Under The Hood: Echolink
Under The Hood: IRLP
Legal Issues in Linking
Web Resources & Glossary

This may be the first book ever written about ham radio applications of VoIP! Author Jonathan Taylor, K1RFD, is the creator of EchoLink and one of the top experts in Amateur Radio Voice over Internet Protocol. He is a member of the American Radio Relay League.
